to give you top marks in the bathroom**

SCOTT[®] Hard Roll
Towel System

Outrun runouts with
Compact Jumbo Roll

Simply
load
1km
tissue

Drying with
paper towels

Reduces
bacteria on
fingers by up to
77%

1. When using SCOTT[®] hard roll hand towel dispensers 7377 / 7378 in conjunction with SCOTT[®] hard roll hand towels 1005 / 6668.

Spread knowledge, not germs with single-use KLEENEX® and SCOTT® hand towels. They offer an effective and the most hygienic hand washing solution compared to jet air dryers and blowers.

Learn the **Disgusting** Truth about Jet Air Dryers

Top Reasons to choose SCOTT® & KLEENEX® Hand Towels over Jet Air Dryers:

Jet air dryers are not as hygienic

Jet Air Dryers blow water droplets containing bacteria from the hands as far as 2 metres and linger in the air for up to 15 minutes.

Jet Air Dryers can actually increase bacteria by 42% on users fingers during the drying process.

The inner surface of a Jet Air Dryer can harbour 48 times more bacteria than found on a toilet seat.

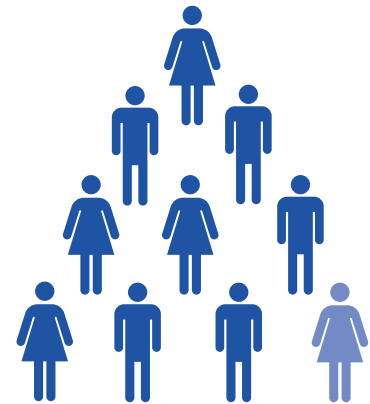

Paper towels are preferred

Paper towels are critical to proper hand hygiene, as they can remove up to 77% of the bacteria that remains on hands after washing.

The World Health Organisation recommends single-use paper towels in its patient safety instructions for healthcare workers.¹

In a recent European study, 90% of people showed a preference for paper towels over air dryers in the bathroom.²

Air Dryers have hidden costs

- Jet Air Dryers need to be cleaned and disinfected daily, especially the seals
- Jet Air Dryers require specific cleaning chemicals
- Jet Air Dryers require daily (or more), cleaning of surrounding areas, including floors
- Filters in Jet Air Dryers must be replaced on a regular basis

1. WHO "Hand Hygiene Guidelines for Health Care Workers."

2. This observational study, conducted during ISSA/InterClean Amsterdam in May 2016, found that 90% of people showed a preference for paper towels over jet air dryers when given a choice between the two in public washrooms.

In contrast, you can count on **KLEENEX®** & **SCOTT®** to elevate the key areas in your school with these trusted solutions

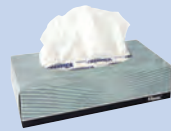

Recommended for use in the following areas for optimum levels of performance & compliance:

 <p>WASHROOM: In addition to hygiene benefits, the majority of KCP towel and tissue products are FSC® certified to ensure sustainability standards are met.</p>	 	<p>CANTEEN: Despite the presence of volunteers, Food Safety standards must still be met. Many of our products are HACCP® certified to be suitable for use in food preparation areas.</p>	 	<p>CLASSROOM: Ensuring that the right hand hygiene products are available, when and where they're needed, is key to helping staff and students stay healthy.</p>
